INSPECT ARKANSAS DIAMONDS.

Stones Taken to New York Are o Good Quality.

New York, May 2.-Numerous specimens of Arkansas diamonds, brought from the recently discovered mines near Little Rock, were in the hands of Maiden Lane jewelers today. They are being exhibited to the experts, manufacturers and importers in an effort to convince them that Arkansas is the coming rival of South Africa.

The experts admit that the Arkansas diamonds are equal in quality to the best from South Africa or any other part of the world. The only dif ference of opinion is as to whether the volcanic pipe found in Arkansas contains stone in sufficient abundance to make them important.
